Subject: FW: Central Sands Dairy Crop History Report Review

Hi all,

CSD submitted the statement below in response to its October 25, 2017 crop history report. The settlement agreement provides for WDNR to now consider whether it finds CSD to be in substantial compliance based on these submissions, and if so, shall public notice a reissuance. The terms of that reissuance can be informed by these submissions.

We are committed to service excellence.

Department clients visit our survey at <http://intranet.dnr.state.wi.us/int/legal/> to evaluate how I did.

Subject: Central Sands Dairy Crop History Report Review

Hi Jane,

On behalf of Central Sands Dairy, LLC, the following statement is being timely provided to fulfill the dairy's obligations pursuant to number 3 of the Crop History Report section in the settlement agreement effective July 27, 2017 between Central Sands Dairy and WDNR:

Central Sands Dairy has reviewed the crop history report submitted to the Department on October 25, 2017 as well as the nutrient management provisions of the settlement and has concluded that no changes to the rotation practices on RDO 12 are recommended beyond what is mentioned in the settlement agreement effective July 27, 2017. For application practices, Central Sand Dairy has concluded it will no longer be able to apply manure to the alfalfa crop after each cutting, dependent upon weather conditions.

Please let me know if you have any questions.

Thank you,

Cameron

Cameron F. Field
